

## 26V Gold Mount Plus with LEMO Connection (ARRI Alexa Mini)

**SKU:** 8375-0223

## PRODUCT DESCRIPTION

Power ARRI Alexa Mini cameras with Dionic 26V batteries to cut the cord, increase mobility and operate the Mini for ~4 hours on a single Dionic 26V 240Wh battery. When handheld shooting means light weight is critical, shoot with the Dionic 26V 98Wh battery and operate for ~1.5 hours on a single battery. Equipped with a 3-Pin LEMO connector, the Anton/Bauer Gold Mount Plus Alexa Mini Plate and Dionic 26V batteries power your shoot without the cables for hours, not just minutes.
