Anton Bauer Sony FX9 V-Mount Battery Slide Pro - V-Mount

SKU: 8075-0258

PRODUCT DESCRIPTION

Power a Sony PXW-FX9 camera for hours with the Anton/Bauer FX9 Battery Slide Pro.

The custom-designed aluminum mount weighs just 0.8lbs and attaches seamlessly into the Extension Unit Connector on the top of the camera providing a secure platform to mount a V-Mount battery directly to the camera with a streamlined profile that fits perfectly into a camera case for compact packing.

The Battery Slide Pro plate steps up the output of a 14.4V battery to the required 19.5V DC, delivered to the camera via the DC-In port. The unique quick-hinge design retains access to the camera's internal BPU battery compartment allowing continuous shooting by hot-swapping internal and external batteries.

Three integrated P-Tap ports deliver power to run additional accessories a digital fuse monitors the current to provide protection to the camera and external devices.
