PRODUCT DESCRIPTION

Peak performance in compact form. For demanding cinematographers, DIONIC XT is the gold standard for high-performance, consistently reliable mobile power in temperatures from -20C to 60C (-4F to 140F). Delivering 12 amps of constant current to power cameras and accessories simultaneously, and with sophisticated charging technology extending its lifecycle to provide the same consistent level of power throughout its life, DIONIC XT is the perfect choice where dependable power is mission critical.
