

Dual Micro Bracket for Sony PXW-FX9 (V- Mount)

SKU: 8375-0244

PRODUCT DESCRIPTION

Power a Sony PXW-FX9 camera for hours with the Anton/Bauer Dual Micro V-Mount Battery Bracket for Micro Series batteries.

The custom-designed aluminum mount attaches seamlessly into the Extension Unit Connector on the top of the camera providing a secure platform to mount (2) Micro Gold Mount batteries directly to the camera with a streamlined profile that fits perfectly into a camera case for compact packing.

The Dual Micro Battery bracket steps up the output to the required 19.5V DC, delivered to the camera via the DC-In port. The unique quick-hinge design retains access to the camera's internal BPU battery compartment allowing continuous shooting by hot-swapping internal and external batteries.

Four integrated P-Tap ports deliver power to run additional accessories. A digital fuse monitors the current to provide protection to the camera and external devices.

- Dual Micro V-Mounts
- Steps up the output to the required 19.5V DC
- P-Tap power outlets
- Unique quick-hinge design
- Aluminum mount attaches into the Extension Unit Connector on the top of the camera
