

## QR-HOTSWAP-GM

**SKU:** 8075-0023

Snaps on to any Gold Mount for true perpetual battery operation

## PRODUCT DESCRIPTION

Easily attach the QR-HOTSWAP-GM to your Gold Mount-equipped camera for uninterrupted, long-lasting battery power. Unlike the conventional method of stacking batteries sequentially, this innovative device enables genuine “hot swapping,” allowing you to replace either battery at any moment. The advanced circuitry seamlessly combines the power output from both digital battery gauges, ensuring precise battery level readings on your camera’s display and interactive viewfinder features. The QR-HOTSWAP-GM is compatible with a variety of Anton/Bauer DIONIC XT, Titon, and Titon Micro family batteries, providing versatile power options for your equipment.
