Titon Base Kit - for Blackmagic Lemo and LP-E6

SKU: 8275-0130

Anton/Bauer Titon Base Kit, for Black Magic Lemo cable and Dummy Input

PRODUCT DESCRIPTION

The slimmer, lighter, more powerful power base for compact cine cameras Titon Base is a 68Wh portable power hub designed to deliver hours more runtime than the consumer batteries supplied with cameras in a lightweight, travel-friendly form. Run Blackmagic Pocket Cinema 4k / 6k cameras or similar camera systems for longer than any other Base battery. Base mounts under the camera to create a perfectly balanced base safely away from camera controls. The quick-release plate and Integrated ¼”-20 mounts allow Titon Base to be quickly released from your camera and mounted to a tripod or camera support with a simple click for fast-moving hand-held action.
