

V-Mount Battery Bracket (Canon EOS R, 5D4, 6D, 70D, 7D, & Blackmagic Design Micro Cinema Camera, Micro Studio Camera)

SKU: 8075-0311

PRODUCT DESCRIPTION

V-Mount battery plate with a Canon 5DmkIV DC connector. Works with Canon EOS R, 5DmkIV, 5D mkIII, 6D, 6DmkII, 70D, 7D, 7DmkII, Blackmagic Micro Cinema Camera, and Blackmagic Micro Studio Camera. An integrated regulator in the plate provides the correct voltage to the camera.

2x P-Taps on plate provide 12-16V depending on battery connected. Cable exits the right side of the plate allowing neat looping and insertion into the camera. The 16" cable length minimizes cable excess while still being able to reach positions further away from the camera as necessary

For an adjustable mount system, use the Universal Mounting Plate for rail mounted cameras – MATRIX Cheese Plate
