

V-Mount Battery Bracket Sony (A7, A7r, A7s, A7II, A7rII, A7sII)

SKU: 8075-0314

PRODUCT DESCRIPTION

V-Mount battery plate with a Sony A7 connector and two P-Tap ports providing 12-16V depending on the battery connected. Works with Sony A7, A7r, A7s, A7rII, A7sII and other Alpha compatible cameras. An integrated regulator in the plate provides the correct voltage to the camera.

Cable exits the right side of the plate allowing neat looping and insertion into the camera. The 16" cable length minimizes cable excess while still being able to reach positions further away from the camera as necessary.

For an adjustable mount system, use the Universal Mounting Plate for rail mounted cameras – MATRIX Cheese Plate
