

V-Mount Battery Bracket Sony (A9, A7rIII) Faux Battery

SKU: 8075-0317

PRODUCT DESCRIPTION

V-Mount battery plate with a Sony A9 / A7rIII connector also known as a dummy NP-FZ100. An integrated regulator in the plate provides correct voltage to camera.

Two P-Taps on plate provide 12-16V unregulated battery voltage.

Cable exits the right side of the plate allowing neat looping and insertion into the camera. The 16" cable length minimizes cable excess while still being able to reach positions further away from the camera as necessary.

For an adjustable mount system, use the Universal Mounting Plate for rail mounted cameras – MATRIX Cheese Plate
