

V-Mount Battery Bracket Sony (FS7, FS5) & Panasonic (EVA1)

SKU: 8075-0281

PRODUCT DESCRIPTION

V-Mount battery plate with a DC connector compatible with Sony PXW-FS7, FS7mkII, FS5, and Panasonic EVA1 and 2x P-Tap ports to power camera accessories.

This model also works with Sony EX3 cameras.

Cable exits the right side of the plate allowing neat looping and insertion into the camera. Voltage regulator integrated in the plate provides constant 12V to camera. The 16" length minimizes cable excess while still being able to reach positions further away from the camera as necessary.

For an adjustable mount system, use the Universal Mounting Plate for rail mounted cameras – MATRIX Cheese Plate
