

DIONIC 26V Battery Series

Native Production Power Dionic 26V Gold Mount *Plus* & B-Mount Batteries

The DIONIC 26V battery system is a dedicated solution designed to power the high-performance production equipment needed to meet the demanding cinematography standards of today. A native 26V battery with continuous 12A current to deliver over 300W of consistent power means you can run large LED panels for longer, producing hours of full intensity creative lighting or drive power-hungry cine cameras or high-speed cine cameras.

When your production demands peak performance, DIONIC 26V batteries ensure that you have the power.

- 20A max draw
- 12A continuous draw
- Gold Mount Plus or B-Mount
- 99Wh or 250Wh Lithium-ion battery
- Gold Mount Plus and B-Mount provide a secure fit for reliable device communication
- Gold Mount Plus and B-Mount protects lower voltage equipment.
- Displays runtime on built-in back-lit LCD display or through camera EVF
- Over discharge, overvoltage, short circuit and thermal protection

Continuous power for high-performance cameras and lights

More Power - No downtime

Delivering a continuous 12A draw, DIONIC 26V produces over 300W of consistently reliable power. With no drop in current like dual-voltage batteries, your sensitive high-end cameras and lights can draw maximum power with no stress or sudden shutdowns. Long run times combined with rapid charging - faster than 14V batteries - means the native power DIONIC 26V system will keep your cameras and lights running continuously all day with fewer batteries for more productivity without expensive downtime.

Accurate information for dependable production planning

Intelligent information

Dedicated to providing pure and consistent output, DIONIC 26V batteries predict run times more accurately than dual-voltage batteries. The Gold Mount Plus and B-Mount mounts provide the most secure electronic communication with camera and lights for accurate calculations, with the industry's most reliable fuel gauge you won't be left powerless on set.

Built stronger to last longer

Tough on the outside, advanced inside

Built with robust materials designed to withstand the rigors of professional set life in any kind of weather together with a secure mount to your camera or light with Gold Mount Plus or B-Mount, DIONIC 26V is the most reliable power source in the cine industry. The dedicated 26V design manages energy more efficiently than dual-voltage batteries using premium cells with protection from over-voltage, short circuits and heat to extend battery life providing the same consistent, dependable power throughout its lifetime.

Lightweight and compact alternative to block batteries

Safer on set, safe in the air

Optional dual brackets for lights and cameras mean DIONIC 26V batteries can provide up to 500Wh of power in a compact lightweight form allowing more portability without being tethered to a block battery and removing trailing cables from your set. 26V power wherever you need it - DIONIC 26V 99Wh batteries are safety certified to comply with UN38.3 IATA lithium-ion battery regulations.

Gold Mount **Plus** and B-Mount

Capacity	Gold Mount Plus and B-Mount	
Available Mounts	Gold Mount Plus and B-Mount	
Dimensions (WxHxD)	3.9" x 5.2" x 2.8" / 9.9cm x 13.1cm x 7.1cm	3.4" x 3.9" x 5.2" / 9.9cm x 13.1cm x 8.7cm
Weight	2.05lbs. / 0.93kg	3lbs. / 1.36kg
Current	12A Constant	
Operating temperature range	-4°F to 140°F / -20°C to 60°C	
Output Voltage	17.5V - 28.9V or 25.4V Nominal	17.5V - 29.4V or 25.2V Nominal
Charge time	-1.5 hours to 100%	-3.5 hours to 100%
