

CINE SERIES

Lithium-ion V-Mount battery

The CINE battery series is a powerful and durable Li-Ion solution in a compact design to compliment cine-style cameras like the ARRI® ALEXA MINI or RED WEAPON DRAGON. Also ideal for camera stabilizer systems and rail mounted cameras. Electrically and Mechanically Safe: Multiple sensors detect temperature and over-current states making these the safest batteries on the market. Updated “honeycomb” design provides mechanical separation between each cell to isolate cells from potential cascading damage. Includes Fuse Link technology: An added protection circuit within each cell pack, which prohibits damage to adjoining cells from a single cell affected by severe impact, puncture or thermal runaway.

- 12 amps of continuous power
- Available in 90 and 150 Watt Hours.
- Includes 1 PowerTap® for powering 14.4V accessories.
- Easy to read LCD: Reports run-time in hours and minutes when attached to a device. Displays percentage of full when not attached to a device.
- Works on all existing Anton/Bauer V-Mount chargers.
- Significant improvements made to the traditional V-Mount design.

CINE 90 VM

SKU: 8675-0106

Weight: 2.3 lbs. (1.04 kg)

Size: 4.67 x 3.84 x 4.01 in.

(11.86 cm x 9.75 cm x 10.19 cm)

CINE 150 VM

SKU: 8675-0107

Weight: 2.75 lbs. (1.25 kg)

Size: 4.67 x 3.84 x 4.01 in.

(11.86 cm x 9.75 cm x 10.19 cm)
