

# TRADE IN, RECYCLE & SAVE

## End User Account

Addendum 1: Recycling Gold Mount, V-Mount, B-Mount and floor batteries

**Anton/Bauer wants to ensure our Trade-in and Recycling Program is accessible to everyone. With that in mind, we have created two methods for end users to recycle eligible batteries and buy new Anton/Bauer Batteries at a discounted rate.**

To facilitate the recycling process we have partnered with Call2Recycle (<https://www.call2recycle.org/>) to handle the recycling process. Please do not send any batteries to Videndum Production Solutions for recycling.

### Eligible Batteries include:

- Anton/Bauer or other manufacturers (under 400Wh)
- Gold Mount, V-Mount and B-Mount (only)
- All common chemistries (Li-ion, Ni-Cd, NiMH)
- Floor batteries up to 1600Wh (NiMH, Li-ion)

**Method #1:** visit a participating channel partner to recycle your batteries and purchase your new Anton/Bauer batteries. To locate a Trade-in and Recycling Partner near you, please visit our Trade-in and Recycling page on the website: <https://www.antonbauer.com/en/product-support/trade-in-recycling-program/>. When recycling and purchasing through these partners, bring your eligible batteries to their location, and purchase your discounted Anton/Bauer batteries at up to 25% off List Price.

**Method #2:** is for customers unable to locate a participating Trade-in and Recycling Partner near them. Please follow the instructions below to recycle unwanted batteries through Call2Recycle, and purchase Anton/Bauer batteries directly from us. We realize you can't be without batteries until your new ones arrive and have a solution! When placing your new order, tell us how many batteries you are recycling, and email a photo of the receipt after you purchase your recycling kit from Call2recycle. When your new batteries arrive, please recycle your old ones.

Method #2 steps are as follows:

1. You will need a battery recycling kit for the volume of batteries you wish to recycle:

Please go to <http://www.call2recycle.org/store/> (within US) and purchase a recycling kit. Each kit includes a pre-paid shipping label and packaging instructions.

- a. These boxes are available in two sizes:

- i) [Small Battery Box](#) is \$45 - Holds ~ 20-25 pounds (~6 90Wh batteries)
- ii) [Large Battery Box](#) is \$65 - Holds ~ 40-50 pounds (~12 90Wh batteries)

2. Contact Videndum Production Solutions ([salesupport\\_usa@videndum.com](mailto:salesupport_usa@videndum.com)) or 1 800-422-3473 to purchase your Anton/Bauer batteries at the "Trade-in and Recycling Program" discounted price of up to 25% off List Price.

- a. Orders must only include Anton/Bauer Trade-in and Recycling Program products (eligible batteries and/or chargers)
- b. The PO must reflect the "Trade-in and Recycling Program" prices.

# TRADE IN, RECYCLE & **SAVE**

Addendum 1: Recycling Gold Mount, V-Mount, B-Mount and floor batteries

The discounted prices are downloadable from the Trade-in and Recycling program page on the website: (<https://www.antonbauer.com/en/product-support/trade-in-recycling-program/>).

- c. Reference the “Anton/Bauer Trade-in and Recycling Program” when ordering, state how many batteries you are recycling. The amount of batteries you are purchasing should match the quantity you are recycling.
3. Once your new batteries arrive, place your eligible batteries in the recycling kit box, seal it and return to Call2Recycle. Please ensure that you package the batteries in line with Call2Recycle instructions.

### Terms and Conditions:

- Program valid through January 31st 2025
- Program valid in the USA, Canada and Latin Americas
